Java Program to Print Reverse of a n Array

```java
import java.io.BufferedReader;

import java.io.InputStreamReader;

import java.io.IOException;

public class BufferPrintElemsOfArray2 {
   public static void main(String[] args) throws IOException {
      int i, limit;
      BufferedReader read = new BufferedReader(new InputStreamReader(System.in));
      System.out.print("Enter the limit:");
      limit = Integer.parseInt(read.readLine());
      String[] products = new String[limit];
      System.out.println("Enter the names of devices:");
      for(i=0; i < limit; i++){
         products[i] = read.readLine();
      }
      System.out.println("\nGiven Devices are:");
      System.out.println("_____");
      for (i=0; i<limit; i++)
      {
         System.out.println(products[i]);
      }

   }
}
```
